Objective

Dynamic and detail-oriented Artificial Intelligence and Data Science student seeking the Program Analyst Internship at Wells Fargo for 2026. Eager to contribute strong analytical skills, technical proficiency in Python, SQL, and Power BI, and a collaborative mindset to support low-complexity initiatives, risk mitigation, and compliance-driven projects in a supportive team environment.

Education

Bachelor of Engineering in Artificial Intelligence and Data Science   2021 − 2025
Don Bosco Institute of Technology, Bengaluru, Karnataka, India
- Relevant Coursework: Data Structures, Database Management, Machine Learning, Business Intelligence
- CGPA: 8.5/10 (as of latest semester)

Technical Skills

- **Programming Languages**: Python, SQL, Java, JavaScript
- **Frameworks & Tools**: FastAPI, Django, Airflow, Power BI, Tableau, MongoDB, Linux
- **Cloud & DevOps**: AWS (Basic), Familiarity with Docker and Kubernetes
- **Soft Skills**: Analytical Thinking, Problem-Solving, Team Collaboration, Communication

Projects

Data Pipeline Optimization (Python, Airflow, SQL)   2024
- Designed and implemented automated data pipelines using Python and Airflow, processing over 10,000 records daily to enhance data accessibility for analytics teams.
- Developed SQL-based data quality checks, reducing inconsistencies by 15%, ensuring reliable datasets for decision-making.
- *Relevance*: Demonstrates ability to handle data-driven tasks and ensure compliance with quality standards, aligning with Wells Fargo's risk and compliance focus.

Data Analytics with Power BI   2023
- Built interactive dashboards to visualize sales data, improving decision-making efficiency by 20%.
- Extracted and transformed large datasets using Python for seamless integration with Power BI, delivering clear and actionable insights.
- *Relevance*: Showcases data visualization and analytical skills critical for supporting low-complexity reporting tasks in the internship program.

Internship Experience

API Developer, ACE Horse, Bengaluru, India   Dec 2022 − Mar 2023
- Developed and optimized RESTful APIs using FastAPI and Django, reducing system response time by 25%, supporting real-time data processing for analytics.
- Implemented automated testing pipelines, achieving 98% API reliability, ensuring accurate and timely deliverables.

- Collaborated with cross-functional data teams to integrate APIs with core platforms, fostering teamwork and stakeholder communication.
- *Relevance*: Highlights technical expertise and collaboration skills, key for low-risk deliverables and stakeholder interaction in the Program Analyst role.

Certifications

- Machine Learning with Python, Coursera, 2024
- Python for Data Science, XIE, 2024
- SQL for Data Science, Coursera, 2023
- Command Line in Linux, Coursera, 2023
- MongoDB Basics, MongoDB University, 2023
- MERN Stack Developer, Edunet, 2025

Extracurricular Activities

- **Member, AI and Data Science Club**, Don Bosco Institute of Technology
Actively participated in workshops and collaborative projects, enhancing technical knowledge and teamwork skills.
- **3rd Prize, State-Level Yoga Competition**, Bengaluru, 2017
Demonstrates discipline, focus, and a strong work ethic.

Additional Information

- **Domain Knowledge**: Basic understanding of risk management and compliance processes in data-driven environments, gained through coursework and self-study.
- **Work Ethic**: Proactive and result-oriented team player with a proven ability to follow instructions, deliver accurate outputs, and adapt to dynamic work environments.
- **Language**: Excellent written and verbal English, suitable for global stakeholder communication.
